Tints and Shades
First Initial Color wheel with Tints and Shades
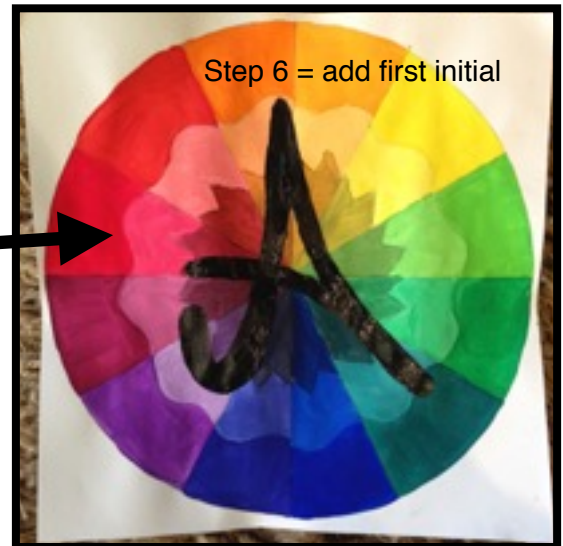

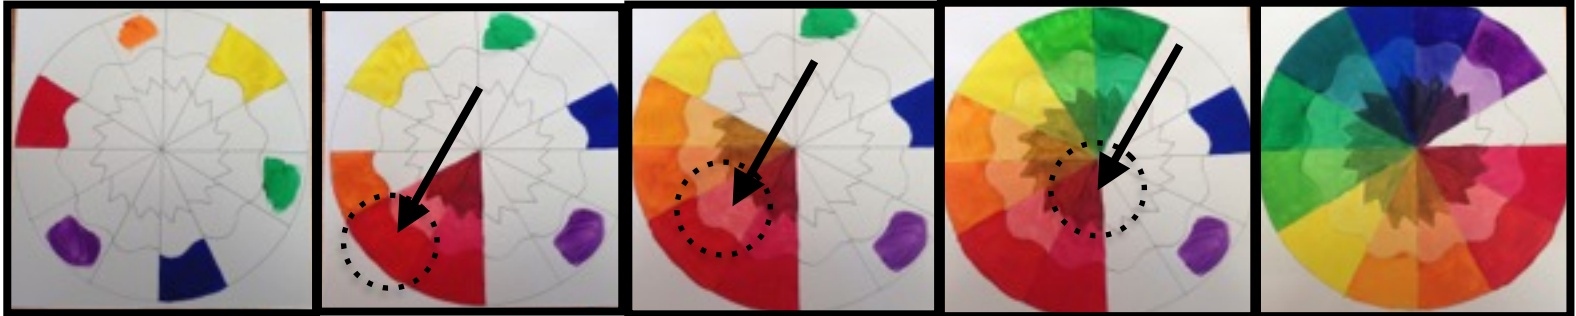

Third Grade

Step 2 = 6 base colors   Step 3 = tertiary   Step 4 = tint   Step 5 = shade

Step 6 = add first initial

Step 1:
Write <u>name</u> on line!

Step 2:
Put **6 base colors** around circle in <u>outermost ring</u>;
skipping a section each time (***primary*** + ***secondary*** colors)
RED ___ ORANGE ___ YELLOW ___ GREEN ___ BLUE ___ VIOLET

Step 3:
Mix two base colors on either side of blank area to create
tertiary color (ex: red + orange = red-orange)
(ex: yellow + green = yellow-green)

** Do not waste paint!!
Little paint goes a long way!

**Rinse brush + paper towel test before switching colors!
Colors should be clean when returned!

Step 4:
The <u>middle ring</u>, mix **base color** + **white** to make a TINT

Step 5:
<u>Inner ring</u>, mix **base color** + **little black** to make a SHADE

Step 6:
Paint first initial from first name over color wheel.

Step 7: Place onto drying rack, clean up!
