

Monochromatic // Tints and Shades Geometric Painted Abstract Names

Fourth Grade

MONOCHROMATIC: variations in lightness and saturation of a single color

TINT: colors that are made lighter by adding white

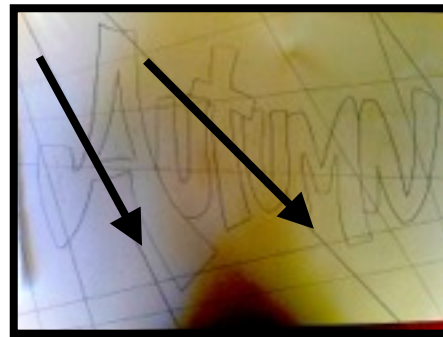

SHADE: colors made by adding black

GEOMETRIC: using simple geometric forms such as circles and squares in design and decoration

ABSTRACT: denoting art characterized by geometric, formalized, or otherwise nonrepresentational

Step 1:
Write full name
on back of paper

Step 2:
** LIGHTLY with Pencil;
Draw name large and
sloppy then outline name.

Step 3:
Lightly use a ruler to draw lines
- 8 lines total, drawn at angles
(4 long side and 4 short side)

Step 4:
Choose main base
color that you will mix
into tints and shades
using black and white

Step 5:
Start with base color + white
to make various TINTS in
one area separated by two
lines **focal point
** each divided area is a
different tint

Step 6:
Start with base color + black
to make various shades in
rest of area
** each divided area is a
different shade

Step 7:
Finish painting
— check is it neat,
creative,

** PLACE ONTO
DRYING RACK
